Welcome to Saudi Heart Association

The National Pulmonary Resuscitation Committee (NCPHR) since 1984 has been working on dissemination of the resuscitation science throughout the Kingdom of Saudi Arabia. It worked through building up the human capabilities for training providers and the accreditation of training sites (centers) at governmental and private sectors. Now the committee continues its commitment to the resuscitation science. However, assuring the quality in presenting this science. The science that deals with the most worthy life on the universe).

In order to do that the committee developed a website to automate all the process and to keep on the quality and to maintain the continuous development of the science to serve the humanity worldwide. We believe that the web portal will be able to assist the users and controlling all the manual process with an easy interface and the development of dynamic data base.
